Competent Persons Statement - Quarterly Report 30 September 2010

Viking Ashanti Limited advises that the Competent Person responsible for information released in the Quarterly Report on 29 September 2010 is Mr Peter McMickan.

The information in the Public Report that relates to Exploration Results is based on information compiled by Peter McMickan, who is a Member of the Australasian Institute of Mining and Metallurgy. Mr McMickan is a full time employee of Viking Ashanti Limited. Mr McMickan has sufficient experience that is relevant to the style of mineralization and type of deposit under consideration and to the activity that he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr McMickan consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

This document may include forward looking statements. Forward looking statements may include, but are not limited to statements concerning Viking Ashanti Limited's planned exploration programs and other statements that are not historical facts. When used in this document, words such as "could", "plan", "estimate", "expect", "intend", "may", "potential", "should", and similar expressions are forward looking statements. Although Viking Ashanti Limited believes that its expectations reflected in these forward looking statements are reasonable, such statements involve risks and uncertainties and no assurance can be given that actual results will be consistent with these forward looking statements.

Yours faithfully,

Peter McMickan
Managing Director

Viking Ashanti Background

Viking Ashanti's Akoase gold project in southern Ghana contains a JORC classified, inferred resource of 500,000 ounces of gold based on 13Mt of ore @ 1.2g/t. Viking Ashanti's primary objective is to expand the resource to at least 1 million ounces of gold. At least 13,000 m of RC drilling is planned along with 2,500 m of diamond drilling at Akoase with a further 14,000m RC and 2,500m diamond drilling at West Star and Blue River through to May 2012.

The Akoase project is just 25km from Newmont Mining's 8.7M oz Akyem gold project while the West Star/Blue River projects are 15 km from the 2M oz Salman/Anwia project, operated by ASX listed Adamus Resources. Ghana also hosts the 60M oz Obuasi deposit (AngloGold Ashanti), 40M oz Tarkwa deposit (GoldFields) and the 17M oz Ahafo deposit (Newmont).

Ghana is socially and politically stable, operates under a well established Westminster legal system, has excellent internal infrastructure with a 25 year history of modern mining and a substantial internal skills base to support mining.
